Chicago, Illinois 60609

Attention: Gilbert Gavlin, President

Gentlemen:

Supplemental Permit, 1983-113-SUP is hereby issued to the above named waste management facility to allow acceptance for treatment and recovery only, the following spent solvents from any IEPA registered generator on a generic basis:

1. Spent halogenated solvents, minimum solvent content 30% (F001) (F002) including trichloroethylene, 1,1,1-trichloroethane, methylene chloride, perchloroethylene, freon 112 and 113.
2. Spent non-halogenated aromatic solvents, minimum solvent content 30% (F003)(F005)(D001) including mineral spirits, toluene and pyridine.
3. Spent non-hazardous N-methyl pyrrolidone.
4. Spent amides (D001) including dimethylacetamide and dimethylformamide.
5. Spent tetrahydrofuran solvent (D001)

All in accordance with the request and application submitted by David A. Durakovich dated June 27, 1983 and received by the Agency on June 30, 1983. This supplemental permit is subject to the standard conditions attached and is further subject to the following special conditions:

1. All wastes accepted under this generic waste stream permit will be treated for beneficial recovery and reuse; no wastes may be received on a generic basis for storage or transfer or for blending into supplemental fuels.
2. All wastes shall be transported from each generator to this treatment facility under a properly completed manifest.

Page 2 STANDARD PERMIT FOR CONSTRUCTION/DEVELOPMENT PERMITS  
ISSUED BY THE ILLINOIS ENVIRONMENTAL PROTECTION AGENCY

3. All wastes accepted under this generic waste stream permit shall be appropriately treated (distillation, liquid extraction and evaporation) with wastewater effluents discharged (under necessary permits) to the sanitary sewer and residuals transported to a permitted disposal site utilizing the Agency supplemental waste stream permit and manifest system.
4. An analysis of each waste stream accepted from each generator shall be maintained on file at your premises for review by the Agency.
5. This facility shall report to the Agency, on a quarter annual basis, the total quantity of each of the generic wastes shown in the attachment to this permit that were received for treatment. Quarter annual reports should be sent to:

Compliance Monitoring Section  
Division of Land Pollution Control  
Illinois Environmental Protection Agency  
2200 Churchill Road  
Springfield, Illinois 62706

The schedule for submission of these waste receipt reports shall be within 30 days of the end of each quarter (i.e., reports due by 30th day of October, January, April, and July).

Except as modified above, this site shall be operated in accordance with the terms and conditions of Permit No. 1980-39-OP and Supplemental Permit No. 1983-49-SUP.

Very truly yours,

*Lawrence M. Eastep*
